

## DRIVING DIRECTIONS FROM CANCÚN

1. Take the main highway (307) south out of Cancun. The concrete highway follows the coast and continues to Tulum. After Tulum the road veers away from the coast and goes around the Sian Ka'an nature reserve. You'll note the landscape change as you drive closer to the jungle.
2. Continue on to Felipe Carrillo Puerto. You can get gas in this town and take advantage of the wonderful snacks that the locals sell at the gas station. If you have time, stop at the market there, its a good example of a traditional Mexican market.
3. Continue on 307 through the small town of Limones. Four kilometers past Limones, turn left to Mahahual at the Cafetal junction. It is well marked. Drive about 54 kilometers.
4. Just past the PEMEX gas station take the first road left which leads to Tampalam, Uvero and Placer. (NOTE: If you get all the way to the lighthouse, you've missed the turn off.)
5. Follow the road 22.5 kilometers until you see a sign to Placer. It will be the first paved road you will see for several kilometers. Turn right and go until the road ends. Turn right and follow the beach road about 5 kilometers further. The Taj Majahual will be on your left.

## DRIVING DIRECTIONS FROM CHETUMAL

1. Head West out of Chetumal until you reach highway 307. The road is well marked.
2. Turn right and continue past Bacalar. You will come to the little town of Pedro Santos that has several topes with people selling fruit. Shortly after the little town you will see the turnoff to Mahahual. Turn right and drive about 54 kilometers.
3. Just past the PEMEX gas station, which will be on your right, take the first road left which leads to Tampalam, Uvero and Placer. (NOTE: If you get all the way to the lighthouse, you've missed the turn off.)
4. Follow the road 22.5 kilometers until you see a sign to Placer. It will be the first paved road you will see for several kilometers.
5. Turn right and go until the road ends. Turn right and follow the beach road about 5 kilometers further. The Taj Majahual will be on your left.
